

ROB BAUMGARTNER

RISK MANAGEMENT CONSULTANT

Rob Baumgartner joined the MJ Insurance team in 1996 as risk management consultant in our Property & Casualty and Surety divisions and became a principal of the firm in 2008. Rob's main areas of specialty are in the construction, real estate development and surety bonding fields. Rob began his career as an owner/operator of a family construction company prior to entering the insurance industry. Because of his background and extensive knowledge in these fields, he has dedicated his entire career to servicing the needs of the construction, manufacturing and real estate industries.

Rob and his team work together to actively design, manage and implement specialized risk management programs for his clients. His expert knowledge of the insurance issues facing construction companies fosters strong partnerships with his clients and has allowed him to help manage and lower their total cost of risk.

Outside of MJ, Rob is passionate about his involvement with Boys and Girls Club, as well as spending time with his four children and cheering them on in their various sports and activities. If Rob has spare time he spends it fishing or snowskiing.
