

LAURIE SCHOENING

RISK TRANSFER SPECIALIST

Laurie Schoening joined the MJ Insurance team in 2000 as Risk Transfer Specialist in the Commercial Insurance department. With nearly 40 years of industry experience, Laurie has grown to become an expert in several fields. Her specializations include: garage, service, technology, municipalities, manufacturing and construction, where she has been instrumental in developing programs to respond to clients' specialized needs.

Laurie works to coordinate service and marketing strategies as well as managing data analytics to identify potential gaps in coverage and making recommendations on those limitations. On top of servicing the day-to-day needs of her accounts, Laurie and her team work to provide clients with the best possible risk management solution to fit their individual needs.

Outside of work, Laurie is very passionate about serving the community. She also loves spending time with her family, reading and gardening. In college, Laurie was passionate about language studies and was able to live abroad for a month in France while studying the French language. She would love to go back to Europe one day to see more of France and Spain.
