

KIMBERLY SHEDD

DIRECTOR OF OPERATIONS -
ARIZONA

Kimberly Shedd joined the MJ Insurance team in 2008 as commercial account manager in our Commercial Insurance department. She was quickly promoted to the account executive position where she grew to become the leader she is today. As director of operations for the Arizona office, Kimberly manages the commercial insurance service staff as well as servicing and maintaining large commercial clients. In her role, she works to develop and establish best practices, procedures and risk management processes throughout the department.

With over 18 years experience, Kimberly's expertise lies in risk management strategy and execution, property and casualty insurance, workers' compensation, experience modification analysis and claims management. Kimberly and her team work to create comprehensive risk management strategies in alignment with clients' corporate goals and strive to provide the best possible risk management solution while offering extraordinary service.

When Kimberly isn't hard at work at MJ, she is probably spending time with her three daughters and son. As a family, they love to watch and compete in sports. Kimberly follows tons of teams but her favorites are the Dodgers, Lakers and Chargers. Someday, Kimberly would love to travel overseas for an entire month.

EXPERIENCE

Prior to joining MJ, Kimberly Shedd worked as an account manager for publicly traded and international companies at a local insurance agency.
