

BONNIE UBER

CARRIER RELATIONS MANAGER

Bonnie Uber started with MJ Insurance in 2002 as an associate producer in our Construction division. Shortly thereafter, she advanced to become the carrier relations manager for MJ's Commercial Lines department. In this role, she is responsible for developing and maintaining MJ relationships with various property-casualty insurance carriers and wholesalers as well as managing and coordinating product and carrier educational meetings.

Bonnie's vast knowledge of the industry comes from her 40 years of experience working in insurance. She previously worked on the carrier side of the business in claims, marketing, underwriting and management positions. Her technical knowledge of commercial insurance coverages and industry lingo proves beneficial to all at MJ, as she is a technical course instructor with MJ YOUiversity, an internal training program for MJ associates.

Outside of work, Bonnie is passionate about her faith, spending time with her family and her commitment to working with select Not for Profit organizations that educate, feed and clothe others. When she is able to find the down time, Bonnie also enjoys going on the green for a round or two of golf.
