

MORGAN AGSTER

ACCOUNT MANAGER

Morgan Agster joined the MJ Insurance team in 2017 as an assistant account manager in our Benefits Consulting department and was quickly promoted to account manager shortly thereafter. Morgan works with the analytics, wellness, compliance, communication and client advocacy teams to execute client healthcare and benefit strategies. Morgan is responsible for preparing custom client materials, cost analysis and summaries, and managing the marketing and renewal process for new and existing clientele. In her role, Morgan particularly enjoys the communication and relationship building aspect with both clients and carriers.

Prior to joining MJ, Morgan worked as a leadership consultant for Kappa Kappa Gamma, where she served as a traveling consultant specializing in the leadership development of collegiate women. She also supported the development and continuation of chapters across the nation.

Outside of work, Morgan is passionate about fitness, especially running. Not many people know that she is also a great figure skater! She stays true to her alma mater and roots for the Arizona Wildcats, but she also fell in love with Clemson on one of her consulting trips and now cheers for the Tigers as well.
