

ALEX DANTIN

DATA ARCHITECT

Alex Dantin joined the MJ Insurance team in 2017 as a data architect and has been integral in the development of our data analytics system and capabilities. Prior to joining MJ, Alex worked as a business intelligence technologist at Allegion, where he was responsible for information analysis and reporting between business units and IT resources.

At MJ Insurance, Alex is responsible for designing and implementing a data warehouse and long term data strategy including process, governance and analysis. He works with the Health Risk Management team to properly develop and analyze reports that provide tactical and strategic recommendations to MJ's benefits consulting clientele. Through this dedicated data analysis, Alex is able to forecast future trends allowing clients to implement the appropriate mitigation strategy in alignment with their needs.

Outside of work, Alex is deeply passionate about his family, dogs and cycling. One of his goals for the future is to compete in a 24 hour cycling event. Alex also loves to make references to movies and keeps a collection of DVDs in his desk to educate the younger members of his team when they don't understand his quotes!

EDUCATION

University of Evansville
