

DIANE FISCHER

RISK TRANSFER SPECIALIST

Diane Fischer joined the MJ Insurance team in 2005 as an account manager in our Risk Management + Commercial Insurance department. A veteran of the business with over 26 years of experience, Diane has proved to be a valued member of the team. She specializes in the large construction industry sector where she works to understand clients' business goals and objectives, while assisting in creating risk management strategies and programs in alignment with those needs.

As a risk transfer specialist, Diane provides client service support and functions as the main point of contact for our construction clientele. She is responsible for the coordination of service and marketing strategies as well as managing data analytics to identify potential gaps in coverage and making suggestions on those limitations. On top of servicing the needs of her accounts, Diane and her team work to provide clients with the best possible solutions to fit their individual needs.

When Diane isn't in the office, she is spending time with her family. One day, she would love to explore the beautiful country of Italy.
