

BRAD FRAWLEY

RISK MANAGEMENT CONSULTANT

Brad Frawley joined the MJ Insurance team as a risk management consultant in 1990 in the Risk Management + Commercial Insurance department and became a principal of the firm in 2003. Brad leads the recycling practice group, while playing an integral role in the manufacturing practice group as well. His twenty-plus years of experience have allowed him to advise clients with operations in all 50 states, Canada, Mexico as well as several Asian, Middle Eastern and European countries.

Brad and his team assist metal manufacturers, scrap dealers, recyclers and distributors to overcome operational challenges, aiding them in understanding the crucial relationship between insurance coverage and cost. Equipped with this knowledge, his clients are able to make informed decisions on how to effectively run their business with a risk management solution that is customized to fit their unique needs.

Outside of MJ, Brad is deeply passionate about the Double "Q" Foundation, an organization benefiting underprivileged youth with Type 1 Juvenile Diabetes that he co-founded. He also loves to travel and spend time with his family. Brad stays faithful to his alma mater and cheers for the IU Hoosiers.
