

NEIL HEIDER

RISK MANAGEMENT CONSULTANT

Neil Heider joined the MJ Insurance team in 2013 as risk management consultant in our Risk Management + Commercial Insurance department. Neil specializes in creating unique risk management programs for clients in the construction, manufacturing and recycling sectors. Prior to joining MJ, Neil worked in both the construction and manufacturing industries where he oversaw production, quality and safety standards.

His expertise on the client side of the business has allowed him to view risk management from a different perspective. With over a decade of experience in the construction and manufacturing industries, Neil understands the business needs of those clients and what they must work through on a daily basis for any given project. This has allowed him to successfully align clients' risk management programs with their business goals and objectives to ensure progress and to truly become a consultant and adviser to those organizations.

Outside of work, Neil spends time with his wife and two young children. As a family, they love to travel and make memories together. Neil loves sports, especially the Colts, Pacers and his alma mater, Purdue. He also loves to golf and would love to play Augusta National one day.
