

DANIEL ORR

EMPLOYEE BENEFIT + RISK MANAGEMENT CONSULTANT

Daniel Orr joined the MJ Insurance team in 2011 in the Risk Management and Benefits Consulting departments. An expert on both sides of the business, Daniel focuses on servicing the needs of our Japanese-Owned Business clientele. As a native of Japan, Daniel has extensive bilingual and bi-cultural experience in Asia, as well as North America. In his previous position with Develop Indy, Daniel traveled to China and Japan to attract and retain Chinese and Japanese direct investments.

Daniel, along with other members of the Japanese Business team, help to educate Japanese nationals on the nuances of risk management and employee benefits concepts and assist in the technical interpretation of insurance policies and programs. Daniel manages the translation and communication with Japanese executives and develops innovative strategies to help our clients further their risk management and employee benefits programs.

Outside of work, Daniel's biggest passions are his family, playing golf, reading and traveling. Daniel and his wife have two young children. They enjoy taking trips as a family and are excited for the kids to be old enough to visit Japan and see where Daniel grew up.
