

MARCIA WOLDAHL

CLIENT ADVOCATE

Marcia Woldahl joined the MJ Insurance team in 1996 as account manager in our small business practice group and has since assumed the role of client advocate in our Risk Management + Commercial Insurance department. With more than 30 years of insurance experience, Marcia now specializes in the manufacturing and construction industry sectors, where she assists in the marketing and renewal process for new and existing clientele.

Marcia specializes in policy and audit reviews and coverage verification while providing client support and servicing the day-to-day needs of MJ's manufacturing and construction accounts. Marcia loves that she is able to use her expertise and experience in the industry to mentor newer members of MJ's team. She works with her team to develop and execute risk management programs and strategies tailored to their client's specific needs.

When Marcia isn't working hard at MJ, she loves to be outside camping, hiking and kayaking. With such a huge love for photography, Marcia tends to lag behind while hiking with her family in order to capture moments in time! She also loves to visit her mother in Florida and one day hopes to retire in the sunny state.
