

DAN ZENTGRAF

DIRECTOR, ANALYTICS

Dan Zentgraf joined the MJ Insurance team in 2018 as our director of analytics. Dan spent the first ten years of his career on the carrier side in Medical, Pharmacy & Dental Underwriting. For the past five years, he has worked as an employee benefits consultant utilizing his underwriting knowledge to assist clients in analyzing their plan costs and help in designing future benefit strategies. With over a decade of insurance experience, Dan brings an immense amount of knowledge and value to the team.

As Director of Analytics, Dan is responsible for developing and executing MJ's data analytics resources to employee benefits clientele. He and his team analyze client data to identify primary cost drivers, risk trends, and evaluate contribution strategies to ensure they provide the insights needed to advance decision making in client's healthcare strategy.

When outside the office, you can find Dan either with his family or working out at the gym. He has a passion for staying physically active and lifting heavy weights, including Crossfit. After years of training in the gym, Dan maxes out his deadlift at a whopping 485 pounds!

EDUCATION

Arizona State University - B.S. Finance
