

JULIE RANK

CLIENT EXECUTIVE

Julie Rank joined the MJ Insurance team in 2016 and currently serves as a client executive in our benefits consulting department. Prior to joining MJ, Julie worked as a talent acquisition manager where she recruited sales executives across 17 states. She understands the recruitment process and how employee benefits effect recruiting and retaining top talent.

With vast experience in the costs associated with hiring and retaining employees, human resources and recruiting, Julie is able to combine her passion for healthcare and talent development in her current role. Julie is responsible for the communication, accountability and execution of annual service plans, claims drill-downs and alternative modeling. In addition to this, Julie oversees the coordination of carrier activities and acts as the internal conduit between analytics, wellness, communication and compliance to ensure that all teams within the Benefits Consulting department work seamlessly to execute on client strategy while providing exceptional customer service.

Passionate about wellness, Julie stays very active when she isn't at work. She loves spin classes, yoga and going for bike rides. True to her alma mater, Julie is a huge Kentucky basketball fan. One day she would love to travel around the Greek Islands!
