

# TALIA GREEN

## DATA ANALYST

Talia Green joined the MJ Insurance team during the Summer of 2019 as an analytics intern and has since stepped into a full-time role upon graduation as a Data Analyst. In the Data Analyst role, Talia produces, supports and maintains a collection of analytics reports in partnership with client services for the MJ Risk Management + Commercial Insurance team.

Talia's responsibilities include writing data queries, interpreting results and displaying her findings in an easily digestible format using MJ's proprietary analytics tool, APERTURE®. Her favorite part about MJ is the ever-expanding knowledge she gains about the insurance industry.

When Talia isn't working, she enjoys watching basketball from her alma mater, Butler University – Go Dawgs! Talia also enjoys spending time with her 11-year-old Jack Russel and Lab mix, Sophie.
