

WES EDRINGTON

MANAGER, ANALYTICS – RISK MANAGEMENT

Wes Edrington joined the MJ team in 2018 as a senior risk analyst in our Risk Management + Commercial Insurance department and has since been promoted to manager, Analytics.

Wes oversees the data processing cycle and the development and production meaningful and easily digestible reports for MJ's Risk Management + Commercial Insurance clients using MJ's proprietary analytics tool APERTURE®. Wes works to enhance MJ's analytics systems and tools to provide the analysis and insights needed to assist clients in advancing their risk management decision making. Along with the rest of the Analytics team, Wes works to determine best practices for handling and analyzing loss data, exposure data and policy data, in order to provide a descriptive picture of past trends, predict future trends, and assist the rest of the team in prescribing solutions to best meet the risk management needs of MJ's clientele.

Outside of work, Wes enjoys watching University of Nebraska athletics. He also loves attending concerts and comedy shows, as well as playing bar trivia.
